

MEGHA SAINI

Jaipur, India | +91-8209818722 | meghasaini820@gmail.com | linkedin.com/in/meghasaini45 | GitHub: github.com/meghasaini82

PROFESSIONAL SUMMARY

Entry-level **Software Engineer (MCA)** with strong fundamentals in **Data Structures & Algorithms, OOPs, and Web Development**. Proficient in **Python, C++, JavaScript, React, SQL**, and RESTful APIs. Hands-on experience in building scalable web applications, implementing data pipelines, and analysing datasets. Adept at problem-solving, writing clean code, and collaborating in team-based environments. Actively seeking **Software Engineer / MCA Graduate Trainee** roles.

EDUCATION

Master of Computer Applications (AI & DS) — Poornima University, Jaipur

Pursuing

Bachelor of Computer Applications (BCA) — University of Maharani College, Jaipur

2021 – 2024

TECHNICAL SKILLS

Programming Languages: Python, C++, JavaScript

Web & Backend: HTML5, CSS3, React.js, REST APIs

Databases: MySQL, SQL

Computer Science Fundamentals: Data Structures & Algorithms, OOPs, DBMS, Operating Systems (Basics)

Data & Analytics: Pandas, NumPy, Excel, Power BI (DAX, Power Query), Matplotlib, Seaborn

Tools & Platforms: Git, GitHub, VS Code

AI & ML : Machine Learning, NLP, and LLM

Soft Skills: Communication, Problem-Solving, Leadership, Adaptability, Self-Motivation, Detail-Oriented, Growth Mindset

WORK EXPERIENCE

Data Analytics Trainee — HDFC Parivartan Skill Academy

May 2025 – August 2025

- Analyzed **10,000+ records** using **SQL and Excel**, performing data cleaning and transformation through ETL processes.
- Designed and deployed **4+ interactive Power BI dashboards** to track KPIs and performance trends.
- Created automated reports using **Power Query and DAX**, improving data accessibility for stakeholders.
- Delivered actionable insights that supported **data-driven decision-making** and business performance analysis.

ACADEMIC & TECHNICAL PROJECTS

AI Fake News Detection Application

- Developed a machine learning–based application using **Python and NLP** to classify news articles as real or fake.
- Implemented text preprocessing techniques including tokenization, stop-word removal, and vectorization.
- Trained and evaluated classification models to improve prediction accuracy and reliability.

HabitFlow – Habit & Productivity Tracking Dashboard

- Built a **responsive SaaS-style dashboard** using **React.js** with reusable components and clean UI/UX design.
- Implemented habit tracking, streak logic, productivity analytics, and interactive data visualizations.
- Managed application state efficiently and stored data using **localStorage and mock APIs**.

CERTIFICATIONS

- Python for Data Science — IBM
- Data Structures & Algorithms — Coursera
- Data Analytics Virtual Internship — Forage
- SQL Certification — HackerRank
- Data Analytics Certification — NSDC
- Google Cloud Engineer — Google
